## OBJECTIVE

---

Become a professional Magento developer. Seeking an exciting position to leverage technical skills and contribute to the success of businesses through optimizing eCommerce websites and delivering exceptional solutions.

## WORK EXPERIENCE

---

### Mirai Software Inc.

Ha Noi, Viet Nam

*Intern*

*Aug 2020 – Sep 2020*

- Collaborated with clients and project managers to gather requirements and define project scope.
- Stayed up-to-date with the latest Magento trends, technologies, and best practices.

### OpenTechiz Business Technology Inc.

Ha Noi, Viet Nam

*Magento Developer*

*Oct 2020 – Present*

- Developed custom modules and extensions to extend Magento's functionality and meet specific project requirements.
- Integrated third-party services, such as payment gateways, shipping providers to improve website functionality and streamline business operations.
- Optimized website performance by implementing caching mechanisms, code refactoring, and database optimization techniques (From 49% to 80%).
- Implemented Elasticsearch for enhanced search functionality, improving product discoverability and user experience.
- Worked with KnockoutJS to enhance the frontend user experience
- Led a small development team, providing guidance, assigning tasks, and ensuring project deadlines were met.
- Provided technical support and guidance to junior developers, promoting knowledge sharing and continuous learning.

## EDUCATION

---

### Posts & Telecoms Institute of Technology (PTIT)

Ha Noi, Viet Nam

*Degree Major*

**GPA: 2.46/4**

## PERSONAL PROJECTS

---

### REST API for POS System

- **Duration:** 3 months
- **Technologies:** Magento 2, MySQL, Docker
- **Descriptions:**
  - \* Implemented authentication and authorization mechanisms, ensuring secure access to the API endpoints.
  - \* Designed and implemented the API architecture, adhering to industry best practices and standards for security, scalability, and performance.

### Extensions Mobile Login | <https://github.com/namnh198/magento-mobile-login>

- **Duration:** 1 month
- **Technologies:** Magento 2, MySQL, Docker
- **Descriptions:**
  - \* Developed custom Magento extensions to enable login with a mobile number, providing an alternative authentication method for users.
  - \* Integrated third-party SMS service providers, such as Twilio or SMSSto, to be sent for various events, such as order confirmation, registration and password reset.

## SKILLS

---

**Programming:** Magento 2.x, Elasticsearch, KnockoutJS, ReactJS

**Technologies:** Git, Docker, Gitlab CI/CD
